## Session 3: Agroforestry - Ecological mutual aid and food sovereignty

Jan 21, 2026

4:00pm-5:30pm EST

Free ~ Virtual ~ [Register](#)

*the conversation*

“All flourishing is mutual ”

~ Robin Wall Kimmerer.

Agroforestry has its roots in traditional Indigenous practices that encourage positive relationships between plants, animals, soil, and humans. Join us for a conversation exploring agroforestry as a climate-smart approach to production, and statewide and community efforts to integrate agroforestry practices to support food security, food sovereignty, and climate resilience.
